

POINT CLUSTERS

CCCM | Camp Coordination and Camp Management

We design our programs to support the formal and informal camps in targeted countries to save the beneficiaries' rights, offering protection for them and enable the accountability strategies in the camps. Furthermore, we share experience with cluster/sector or working groups and any other formal approaches to participate effectively in decision making for establishing new sites/- camps by mapping and verification processes to support the local actors to establish sites that matching the CCCM Toolkit and SPHERE standards. Moreover, community participation is one of the targeted objectives in our strategy to enhance their participation and achieve their ownership of projects, we do that through multi interventions specifically capacity development, cash grants to implement projects by camp committees to the camp residents. We care to design our interventions in the camps in collaboration with camp committees and involve them in implementation and consider their recommendations for activities such as rehabilitation of roads, maintenance of the schools or WASH facilities...etc.

CEP | Civilians Education and Protection

The programs of this domain aim to strengthen the communities in education, knowledge, and protection. our targets are to mainstream the Humanitarian protection & education standards. wherefore, We focus on increasing the quality and access to education for children. Also to enhance the youth to higher education to support them in the coping strategy. Furthermore, it increases the capacity of communities and organizations related to protection standards. The main approach of these programs is community-based mainstreaming and capacity development. All activities pursue to ensuring full respect for the rights of the individual in accordance with the letter and spirit of the relevant bodies of law (i.e. human rights law, international humanitarian law, and refugee laws).

ERL | Early Recovery and Livelihood

The domain programs designed to mitigate the causes of poverty which are complex and can include political, social, economic, and environmental factors that often create barriers for poor households. Addressing these barriers to economic empowerment within a community not only strengthens their ability to succeed in the short-term but also helps them become more resilient in the face of unexpected disasters. Our programs have tailored tools and strategies to target camps, urban areas, and rural areas. We are working closely with the communities by using a community-based approach to support their resources and provide them new resources to mitigate poverty, sustain the market chains, and focus on innovations solutions. Engineering interventions for the targeted areas are one of our programs approaches to create sustainable solutions for the beneficiaries to access the market, build up the market capacity, and to support the economy of areas in engineering to make income-generating projects. engineering interventions also can provide protection for beneficiaries by rehabilitating solutions for their houses, roads, or WASH facilities to mitigate the risks for them and do no harm. With the mainstreaming for gender issues, we include women empowerment components in our programs to support the women for a greater role in empowering targeted areas.

FSL | Food Security and Livelihood

Programs in this sector encompass a range of activities and interventions aimed at ensuring access to sufficient, safe, and nutritious food for all people, while also promoting sustainable livelihoods and economic development. The importance of the FSL sector cannot be overstated, as it plays a critical role in several areas such as increasing access to an adequate and nutritious food supply, helping vulnerable populations to improve their livelihoods through sustainable agricultural practices, income-generating activities, and access to markets, providing strategies to enhance communities' by diversifying livelihoods, implementing climate-smart agriculture, and building food reserves, communities can better withstand and recover from these challenges.

CDLA | Capacity Development For Local Actors

As POINT one of the pioneers in the Capacity Development in the region, this wide domain is aiming to empower and strengthen workers and organizations in the humanitarian field for better crisis response, more cost-efficient, and higher qualitative project delivery. POINT seek to include the training, coaching, long term follow up, for those who participate in its programs. for that, we are always developing our experience in coordination with high institutions around the world.
